Let's see first, how the money is made. This is a Potential to make if you start sharing this Mobile Company with your friends and family. Everyone use a cell phone.

Nothing to lose, but everything to gain;

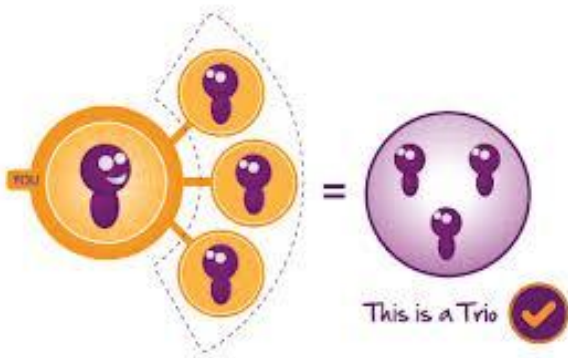

Solavei gives you the opportunity to try the service for 30 days FREE of any charges.

<http://cellphoneforlife.com/>

Solavei has one basic building block. It's called a TRIO.

A Trio happens when you or someone in your Network enrolls 3 new mobile service members to Solavei.

There are Four Ways Solavei Pays You

1^o FAST ACTION BONUS (FAB)

The screenshot shows a webpage titled "Fast Action Bonuses" from <http://cellphoneforlife.com>. The page explains that bonuses are based on trios directly enrolled within 60 days. A table lists the bonus amounts for 1 to 4 trios, totaling \$650. To the right, a diagram shows a central Solavei icon connected to four groups of three people icons, representing trios. The Solavei logo at the bottom right includes the tagline "powered by relationships."

Personal Trios	FAB	Trio Pay	Path Pay	Path Bonuses
1	\$50			
2	+\$100			
3	+\$200			
4	+\$300			
\$650				

4 Direct Trios in your first 60 days = \$650 FAB

Enroll as many friends and family you want on your first 60 days and see how much money Solavei can pay you as a BIG Thank you.

What other Carrier does this to you?

For every new trio, you get paid \$20/month.

2º TRIO PAY = MONTHLY PAYMENTS

The screenshot shows the 'Trio Pay' section of the Solavei compensation plan. At the top, it says 'http://cellphoneforlife.com' and 'Personal Network' with a diagram of a network. Below that is a table showing the relationship between the number of Personal Trios and the monthly payment. A callout box states 'With only 3 Trios, you earn enough to pay for your mobile service 3 = FREE'. At the bottom, it says 'And there is NO limit to the amount you can earn with Trio Pay' with a downward arrow pointing to the website URL 'http://cellphoneforlife.com/'. The Solavei logo is also present.

Personal Trios	FAB	Trio Pay	Path Pay	Path Bonuses
1		\$20/mo		
2		\$40/mo		
3		\$60/mo		
4		\$80/mo		
20		\$400/mo		

With only 3 Trios, you earn enough to pay for your mobile service
3 = FREE

And there is **NO** limit to the amount you can earn with Trio Pay

Confidential and Proprietary | Page 12
<http://cellphoneforlife.com/>
solavei powered by relationships.

Is there any other mobile company pays you every month for advertising their services?

With Solavei if you enroll 3 trios (9 members) your monthly earnings are \$60, because you get paid \$20 a month for every trio (3 members).

Solavei requires no contract. It gives the opportunity to enroll on the monthly basis with Unlimited Voice/Text/Data for \$49/mo.

You are in profit! It means, your mobile service with [Solavei](http://solavei.com) is 100% FREE even if you only have one trio. In addition, you make extra money if you use any other mobile service. It's worth to try.

Of course there is no limit the amount of trios you can get.

<http://cellphoneforlife.com/>

More trios = more money.

Remember: for every trio your friends or family get for themselves you will get paid another \$20 a month adding on yours \$20/mo for every trio you personally enrolled.

3rd PATH PAY

Path Pay <http://cellphoneforlife.com>

Based on Overall Network Trios

Network Trios	FAB	Trio Pay	Path Pay	Path Bonuses
4			\$50/mo	
8			\$100/mo	
12			\$200/mo	
16			\$400/mo	
20			\$1,000/mo	
100			\$2,000/mo	
250			\$3,000/mo	

Network Trios	FAB	Trio Pay	Path Pay	Path Bonuses
500			\$4,000/mo	
800			\$5,000/mo	
1000			\$8,000/mo	
1200			\$10,000/mo	
1500			\$15,000/mo	
2000			\$20,000/mo	

Earn from \$50 to up to **\$20,000** per month

Confidential and Proprietary | Page 14 <http://cellphoneforlife.com/>  powered by relationships.

Now the Overall Network comes in. It is developed overtime from all members inside of your personal network.

It's called Path Pay.

Path Pay is based on Overall Network Trios that you can get paid more based on your overall network trios. You can get paid extra \$50/mo (besides the \$20/mo that you already have based on your trios) all the way to \$20,000 per month. Look again at the picture.

4^o PATH BONUSES

The screenshot shows a webpage titled "Path Bonuses" from <http://cellphoneforlife.com>. It features a table with five columns: Network Trios, FAB, Trio Pay, Path Pay, and Path Bonuses. The table lists five rows of data. Below the table is an orange banner stating "You can earn up to \$37,500 in 1x bonuses". At the bottom, there is a footer with "Confidential and Proprietary | Page 15", the URL <http://cellphoneforlife.com/>, and the Solavei logo with the tagline "powered by relationships."

Network Trios	FAB	Trio Pay	Path Pay	Path Bonuses
12				\$500
100				\$2,000
800				\$5,000
1500				\$10,000
2000				\$20,000

You can earn up to **\$37,500** in 1x bonuses

Confidential and Proprietary | Page 15

<http://cellphoneforlife.com/>

 **solavei**
powered by relationships.

Starting from 12 overall network trios you get, an extra \$500 one time up to \$20,000 bonuses if you reach the 2,000 network trios mark.

It doesn't matter if you only have 3 trios enrolled. If all members you enrolled got trios for themselves, you get paid bonus as it shows on the chart above.

Getting as many trios as possible should be your goal. Think about it.

Can you imagine getting paid **\$20,000** every month? What will you do with all the money?

Now look what you can make if you take massive action:

CALCULATING

Let's see on real time scenario. What really can happen if you sign up for Solavei?

You become a member of [Solavei](#). But...

You don't know how to promote it;

You don't have the time to do it;

You have no idea how to start.

Let's do some math together with Two and Half Years period of Solavei Membership

Remember:

Your Personal Network is all your friends and all their friends. All of them are your sphere of influence.

Your Overall Network is the people who come after that.

What happens in 2 years period inside of your Personal Network and Overall Network?

You are probably many years with your mobile service or you switched many times to find the ONE that better suits your needs.

The following shows the results in 2 years period using your current Mobile Service Provider with Unlimited Services.

Two Years after using your present Mobile Service Provider you pay:

[VERIZON](#), the largest mobile services provider in the US, is the top-rated among users, particularly for its great customer service. It has been granted the [best J. D. Power's Custom Satisfaction award](#).

\$89.99 +24 months=\$2,159.76

\$99.99 + 24 months=\$2,399.76

Number of subscribers: 33.4 million.

Payment plans: Contract-based and prepaid.

Plans prices: Unlimited everything for \$99.99

\$99.99 + 24 months=\$2,399.76

Activation fee: \$35.

Contract length: 2 years

Early termination fee: \$200.00

[BOOST MOBILE](#)

A division of Sprint Nextel, Boost offers the best plan available on prepaid basis, with no contracts or credit checks. On the downside, its phones are rather expensive and the selection is limited.

Number of subscribers: 4.3 million

Payment plans: Prepaid only.

Plans prices: Unlimited everything for \$50.00

\$50.00 + 24 months=\$1,200.00

CRICKET Although it has coverage limitations that can result in high roaming charges, Cricket offers competitive pricing on a number of program options, provided that they are included in the selected plan.

Number of subscribers: 7 million

Plans prices: Unlimited everything for \$60.00

\$60.00 + 24 months = \$1,440

VIRGIN MOBILE offers innovative plans that are centered on texting and data, so they are ideal for those who text and use social networking sites over traditional voice calls. Voice calls however can be rather high unless you choose the highest-priced plan.

Number of subscribers: 6 million

Payment plans: Prepaid only.

Plans prices: Unlimited everything for \$55.00

\$55.00 + 24 months = \$1,320.00

Activation fee: None

US CELLULAR: As a regional mobile services provider, it doesn't offer service outside the Midwest and some other specific areas. Due to this, roaming charges can be very high. Also, they don't offer roadside assistance or rollover minutes.

Number of subscribers: 5.8 million

Plans prices: Unlimited everything for \$114.89

\$114.8999 + 24 months = \$2,757.36

Activation fee: \$30.

Contract length: 2 years.

[METRO PCS](#) They offer some of the most competitive prices in the market (their prices already include fees and taxes), but like US Cellular, they provide service in certain regions only, so roaming charges can add up.

Number of subscribers: 9.5 million

Payment plans: Prepaid only.

Plans prices: Unlimited everything for \$40.00

\$40.00 +24 months=\$960

Activation fee: None.

[TRACFONE](#) offers phones and services at a very low initial investment and without credit checks. However, their cost per minute is high compared to other services, and phones are very basic, so they are only a good choice for emergencies or minimal use.

Number of subscribers: 18.5 million

Payment plans: Prepaid only.

Minimum Plan prices: \$9.99 for 50 minutes

\$9.99 +24 months=\$239.76

Activation fee: None.

All of them have different features and pricing, and getting lost in the technicalities can be very easy. So if you are looking for a mobile services provider and can't make up your mind, have a good look at the price plans and features that each of the companies offer and see what best fits your needs before choosing one or the other. But no one will pay you to use their services.

Now forget about loyalty that you have with your present mobile service. Let's picture what can happen if you enroll for [Solavei membership](#) with a period of two years.

Let's imagine that in 6 months period after your enrollment you were able to enroll 3 friends (between family and friends).

It means that Solavei deposits direct to your VISA CARD

3 friends = 1 trio = \$20
Fast Action Bonus = \$50
Total Pay = \$70

Monthly Earnings = \$20/mo

After another 6 months period (it means 1 full year is gone now) all your 3 friends they did exactly like you did and they only enrolled 3 friends they know. All of them belong to your **Personal Network**.

Now you have on your Personal Network 12 friends, giving you **4 trios**.

As I explained before, Solavei pays you in 4 different ways:

It means that because of these 4 trios Solavei will pay you:

12 friends = 4 trios = \$80/mo +
Path Pay = \$50/mo +
Fast Action Bonus = \$600
Total Pay = \$730

Monthly Earnings = \$130/mo

Now, all these 12 members will start building your **Overall Network**. But let's not focus on your Overall Network for now.

We keep looking at your Personal Network ONLY.

After 6 months period all of your 12 members from your Personal Network enroll 3 new members only because they are not fully committed with Solavei.

It means that every 6 months you add 12 new trios.

Now your network grows up to $12 \times 3 = 36$ members. Now you have **12 trios**.

With 12 trios you get paid from Solavei:

36 friends = 12 trios = \$240/mo +
Path Pay = \$200/mo +
Path Bonus = \$500
Total Pay = \$940

Monthly Earnings = \$440/mo

After 6 months to complete our 2 year period your 36 members referred ONLY 3 members as well; it means that on the end of your 2nd year of membership with Solavei you have 108 members total on your Personal Network making Solavei to pay you directly to your Visa Card

Let's see with the entire bonus how much you get paid.

<http://cellphoneforlife.com/>

With **108 members you have 36 trios** you get paid from Solavei:

108 friends = 36 trios = \$720/mo +
Path Pay = \$1,000/mo +
Total Pay = \$1,720/mo

Monthly Earnings = \$1,720/mo
